MOSONATURAL
AIR PURIFYING BAG
place in direct sunlight once a month, reuse up to two years
www.mosonatural.com
DATE OPENED ____ / ____ / ____
made in China

FREE OF CHEMICALS

The Moso Bag is filled with one ingredient – bamboo charcoal which is safe for people and pets.

Bamboo charcoal is natural, non-toxic and sustainable. Each bag eliminates unwanted odors and harmful pollutants without any additives or chemicals. In damp, musty environments, the Moso Bag will regulate humidity and absorb excess moisture.

FREE OF FRAGRANCE

Moso Natural uses the highest quality bamboo charcoal on the market. During a specialized carbonization process, *Moso* bamboo is turned into ionized charcoal with millions of tiny, porous holes. Like a magnetic sponge, these pores work together to attract particles out of the air.

Odors are actually *absorbed*, not just covered up.

FREE OF IMITATORS

The original, leading brand for
Air Purifying Bags.

This new patented design
features reinforced
grommets, a wide and sturdy
base, and an attractive linen
case to blend into any décor.

HOW TO USE

Simply hang or place the Moso Bag in an open area. Without needing wires or batteries, the Moso Bag will attract particles and remove them from your air. Once a month, place the Moso Bag outside for one hour to rejuvenate. With routine rejuvenation, the Moso Bag will last up to two years.

At least once a month, place your Moso Bag outside for one hour. Even on cold or cloudy days, the UV rays from the sun will clear the pores of the bamboo charcoal, making it ready to absorb again.

With simple maintenance, the Moso Bags are reusable for up to two years. Most air fresheners, in addition to containing harmful chemicals, don't last more than forty-five days.

After two years, the bamboo charcoal makes a wonderful addition to your garden. Simply cut open the Moso Bag and sprinkle the charcoal into the soil, where it helps plants absorb moisture and nutrients.

WHAT CUSTOMERS SAY

Over 10,000 5-star reviews across our retail channels

★★★★★ **Simply Amazing**

"The smell in my closet is completely gone! I've tried sprays and gels but they never worked. This did."

★★★★★ **Love it**

"I put these in whatever shoe I wore that day. They're effective and do a great job! I came back to order a few more."

★★★★★ **Wonderful product!!!**

"I have had some very musty odors that I could not get rid of with anything I have tried. Put these around the worst areas and the smell just went away in a couple of days. These are great. Highly recommend."

★★★★★ **Works Great!**

"What I like best is that it leaves no fragrance. It's not like other air fresheners that just cover up the smells."

★★★★★ **She don't gripe no more**

"My wife had complained that the interior of my car smelled like something was "dead or dying". Put a bag in my car and one in hers. She actually said "It doesn't smell any more."

★★★★★ **Life saver**

"We had a terrible smell on our fridge, we cleaned, threw away food. Nothing helped. Used baking soda and essential oils. This little bag saved my sanity."

Moso Natural Air Freshener
mosonatural.com (\$9.95)

Please stop buying those pungent air fresheners from the convenience store. Instead, Moso Natural air bags in your ride, and your passengers will thank you. Moso uses bamboo charcoal to absorb odor, not mask it, making for a less cloying overall experience. It has a claimed two-year life span.

Moso bags

Moso bags contain only one ingredient: pure Moso bamboo charcoal. Bamboo charcoal contains millions of tiny pores that attract and absorb odors, bacteria, chemicals and moisture from the air like a magnetic sponge. The Moso Bag is completely safe, non-toxic and fragrance free. And each bag freshens air for up to two years. Moso Bags are available in a variety of sizes from \$7.95 - \$19.95.
